Interstate Health Certificates

- Animals travelling across state lines must receive a completed and signed document from the state of origin by an accredited veterinarian after their examination of the animal.

Small Animal CVI Forms

- VDACS does not produce small animal CVI books
- APHIS 7001 form can be downloaded from USDA
- Many states do not accept the 7001 form
- All states accept electronic health certificates

--ALERT--

Effective July 14, 2021, the CDC temporarily suspended (stopped) dog imports from countries classified as high-risk for rabies. **Effective December 1, 2021**, the CDC updated its requirements to allow certain U.S. origin dogs returning to the U.S. with their owner to be imported from countries classified as high-risk for rabies if the pet meets specific requirements. [Learn more on CDC.gov](#) .

When travelling with your pet(s), there may be animal health requirements specific for that destination. As soon as you know your travel details, contact your local veterinarian to assist with the pet travel process. Factors to consider may include meeting time frames for obtaining a health certificate, updating vaccinations, diagnostic testing, or administration of medications/ treatments.

Travel with your pet state to state (Interstate)

To learn the requirements for moving your pet from your current location to another U.S. state, please select your destination state from the list below. If you have questions, direct them to the [State Veterinarian's office](#) in your destination state.

Choose your destination state.

Alabama ▾

negative to a single cervical tuberculosis test within 90 days of entry.

Dogs

All dogs and domesticated cats to be moved or transported into Alabama for any purpose shall be accompanied by an official Certificate of Veterinary Inspection showing that the animals have been officially vaccinated against rabies and identified by vaccination certificates and tags bearing serial numbers not more than one (1) year prior to shipment. Puppies and domesticated kittens under 3 months of age may be admitted without vaccination.

This section does not apply to any dog or cat which is imported into the state for exhibition purposes and which does not remain in the state for more than 21 days. No dog or domesticated cat infested with screwworms shall be shipped or otherwise imported into Alabama for any purpose.

NOTICE

The Alabama Department of Agriculture, State Veterinarian has decided to stop accepting Interstate Certificate of Veterinary Inspection (ICVI), APHIS-VS form 7001 for small animals entering Alabama.

Effective January 1, 2019, APHIS form 7001 "United States Interstate and International Certificate of Health Examination for Small Animals" is no longer approved for interstate movement of small animals into Alabama by the Alabama Department of Agriculture and Industries (AGI). Please be aware that numerous other states are no longer accepting the online-only form, due to its free access to the public for downloading off the internet without any accountability as to who uses the form.

An Interstate Certificate of Veterinary Inspection (ICVI) is an official document issued by an accredited veterinarian certifying that the animal destined for interstate movement is healthy at the time of the veterinary inspection.

Alabama licensed and accredited veterinarians may purchase ICVI booklets by contacting our office at 334-240-7255. Alabama currently accepts electronic ICVI's provided by Global Vet Link and AgView. Links to these providers are:

HAWAII RABIES QUARANTINE

Information Brochure

This brochure contains important information about pre- and post-arrival requirements, quarantine station procedures, policies, rules, operations and fees.

It is strongly advised that you read and retain this information brochure for future reference.

1 Checklist 1 for Direct Airport Release (DAR) & 5 Day Or Less Program

HNL – Honolulu, Island of Oahu

All steps need to be completed to qualify for this program. If you are unable to meet the following requirements, your pet will undergo quarantine for up to 120 days.

- For pets in Hawaii, please use: "Checklist Only for Dogs and Cats Located in Hawaii That Are Departing and Returning for DAR or the 5 Day Or Less Program" instead.
- For Owners wishing to fly their pet direct to Ellison Onizuka Kona International Airport at Keahole, **Kahului** Airport or **Lihue** Airport Refer to the "Checklist for Requesting Direct Airport Release at Kona, Kahului and Lihue Airports" instead.

Step 1 PLANNING

- ☐ Every dog or cat must meet the requirements listed on this Checklist and all required documents must be received by the Animal Quarantine Station (AQS) 10 days or more before the intended date of arrival for Direct Airport Release (DAR) in Honolulu.
- ☐ Refer to section "Step 5 Waiting Period" and "Step 8 Other" for information on DAR.

Step 2 MICROCHIP

NOTE! Make sure the microchip is working!

- ☐ Your dog or cat must have an electronic microchip implanted before the FAVN rabies antibody blood test is performed).
- ☐ Have your veterinarian scan the microchip to verify that it is still working and see that the microchip number is correct. Microchip number: _____
- ☐ Any pet that cannot be identified by scanning the microchip will not qualify for either Direct Airport Release or the 5 Day Or Less quarantine and will be assigned to 120 days quarantine.

Step 3 RABIES VACCINATIONS

- ☐ Your dog or cat must have been vaccinated at least twice for rabies in its lifetime.
- ☐ The rabies vaccines must have been administered **more than 30 days** apart.
- ☐ The current (most recent) rabies vaccine must have been administered:
 - ☐ More than 30 days before the pet's date of arrival in Hawaii ; and
 - ☐ Not more than the vaccine's licensed booster interval listed on the manufacturer's label

NOTE! Two rabies vaccinations are required. The pet's most recent rabies vaccination must not be expired when your pet arrives in Hawaii. **If arrival in Hawaii occurs before 30 days has elapsed from the most recent rabies vaccination, the animal is subject to quarantine until the 30 days are completed.**

- ☐ Your veterinarian will give you rabies vaccination certificates for every rabies vaccination. The date and type of vaccine must be indicated on these vaccination certificates.

CVI Tips

- Only one species per form
- You must perform the exam personally
- The form is dated on the day of examination
- CVI's are good
 - SA for only 10 days in many states
 - LA for 30 days

CVI Tips

- Ditto marks are unacceptable
 - Cross out any unused portions of the form
- Put your name and address on the form
- Sign the form
 - All signatures must be original.
- National Accreditation Number (NAN)

Information on CVI

- The certificate must include
 - Full name of the owner
 - Animal name and official identification
 - Addresses- **location of the animal** at origin and destination
 - Additional box for the owner address if different from animal
 - Do not use PO Box numbers
 - Use complete physical (911) addresses

Test Results and Vaccination

- Put all required test results on the form
 - No “pending”
 - If another accredited vet performed the test or vaccination
 - Make a copy of the form or certificate for your files
 - Write the other veterinarian’s name and NAN
 - Date and the place where test/vaccination performed
 - If don’t have reliable info, repeat test or vaccination
 - If the animal is not free of infectious disease and needs to move, i.e. for treatment, call the state of destination to get permission

Coggins Test Info

- Be sure to add the Coggins info onto the CVI
 - Especially if using GlobalVetLink
 - Lab Name
 - Accession Number
 - Date Blood drawn
 - Test Result

Permit Numbers

- State of destination may require permit number
- Must be obtained to complete the CVI
- You will need owner and animal information for origin and destination
- Must be obtained and recorded on the CVI prior to issuing

Who Gets What

- Owner receives a copy of the CVI
 - It must accompany the shipment
- The issuing veterinarian must retain a copy
 - 3 years small animal,
 - 2 years poultry and swine
 - 5 years for livestock
- Regional VDACS office must receive copy within 7 days of issue
 - US Postal mail or forwarded electronically
- Electronic CVI will automatically be
 - Sent to our office
 - Sent to state of destination.
 - Kept in your account in the company's database

Airline Travel

- Check with your airline to determine what requirements they have
 - Airlines may have separate and additional requirements

Ferrets

©Warren Photographic

- Are illegal in CA and HI
- Some cities and counties throughout US have restrictions
- Check with the locality before filling out health certificate

-

Extended Equine Certificate of Veterinary Inspection

- Vet examines the horse
- Coggins with 6 months left
- Teach owner to perform brief exam
 - including temperature, lymph nodes, nasal discharge
- Owner must log in prior to movement to obtain permit

Cattle, Sheep and Goats

- Official ID is required for exhibition
- Individual events may have own ID and health requirements
- Virginia is Brucellosis, Tuberculosis and Scrapie free
- Check the animal admissions requirements for destination state to confirm what forms of identification will be accepted

When travelling with your pet(s), there may be animal health requirements specific for that destination. As soon as you know your travel details, contact your local veterinarian to assist with the pet travel process. Factors to consider may include meeting time frames for obtaining a health certificate, updating vaccinations, diagnostic testing, or administration of medications/ treatments.

Take your pet *from* the United States *to* a foreign country (Export)

Your destination country may have specific health requirements that must be met before your pet can enter the country. Since export requirements are determined by each country and can change frequently, every time you plan pet travel you will need to verify the export requirements. Select your destination country from drop-down menu below to view their current pet travel health requirements:

Choose your destination country.

(If your country is not listed, [click here.](#))

Italy

View Requirements

VIRGINIA DEPARTMENT
OF AGRICULTURE AND
CONSUMER SERVICES

Do you have an EU Pet Passport?

- **YES** — I have an EU Pet Passport — You do not need to meet the following requirements because of your EU Pet Passport. [View more information about EU Pet Passports](#),
- **NO** — I do NOT have an EU Pet Passport — Follow the requirements listed in steps 1-5 below.

STEP 1: Identification with microchip

STEP 2: Rabies vaccination

STEP 3: 21-day waiting period (after primary vaccination)

STEP 4: Have an Accredited Veterinarian issue (complete and sign) the EU Health Certificate

STEP 5: Have APHIS endorse (sign and seal) the EU Health Certificate

After you have read requirements 1-5 listed above, click here to get Italy Health Certificates.

STEP 1: Identification with microchip

- **Dogs, cats, and ferrets** must be individually identified by microchip.
- Your pet should be implanted with an ISO compliant (11784 and 11785) microchip. ISO compliant microchips are 15 digits long.
- If your pet does **not have** an ISO compliant microchip, you will need to:
 - Travel with a microchip reader that can read your pet's microchip OR contact the EU Veterinary Officials at the intended port of arrival to verify that they have a reader capable of reading your pet's microchip.
OR
 - If a non-ISO compatible microchip was previously implanted and can still be read, then the USDA Accredited Veterinarian can implant an ISO-compatible microchip in addition to the non-ISO one your pet currently has. The number and implant dates of both microchips must be documented on the EU Health Certificate.

STEP 2: Rabies vaccination

- Must occur AFTER microchip implantation. The rabies vaccination may be administered the same day as the microchip implantation but any rabies vaccination before a microchip is implanted is invalid.
 - If your pet had a non-ISO compatible chip implanted at the same time as or before your pet's most recent vaccination, your pet will not have to be re-vaccinated even if it had to be re-microchipped with an ISO compliant chip to travel to the EU.
 - Remember, the number and implantation dates of both microchips must be documented on the EU Health Certificate and at least one of these microchips must have been implanted before your pet's most recent rabies vaccine.
- Vaccinations valid for 1, 2 or 3 years are acceptable as long as the vaccination is current and has been administered according to the manufacturer's recommendations.
 - Vaccination must not expire before entering the European Union.
- Pets less than 12 weeks old that have not been vaccinated for rabies as well as pets 12-16 weeks old who will have been rabies vaccinated for less than 21 days at the time they arrive in the EU are allowed entry into some EU Member States.
 - [Learn more](#) about sending pets under 16 weeks of age to the EU.

Medical Officer Signature

Digital Endorsement **NOT**
Accepted
The health certificate bears the
original ink signature and
embossed seal

Before going to VEHCS: Scroll below this banner to view animal-specific requirements.

To process some health certificates, VEHCS may need the USDA Accredited Veterinarian to upload the completed fillable PDF version found below. Either save a copy of the PDF below, or return to this page for the health certificate, if prompted by VEHCS.

USDA Accredited Veterinarians, log in here if you wish to use VEHCS.

USDA Accredited Veterinarians, help with using VEHCS is available on the [VEHCS Help Page](#). To walk yourself through issuing a health certificate in VEHCS, [click here](#).

NOTE: The printed paper endorsed health certificate must accompany each shipment. You can arrange to have your endorsed health certificate returned via pick-up or by mail (a pre-paid, pre-addressed return label must be provided during certificate submission).

IMPORTANT

Carefully read ALL of the requirements related to your pet on this page.

- This page provides the most recent entry requirements and can change without notice.

- It is the responsibility of the veterinarian to make sure the pet has met all the health requirements of the destination country before issuing a health certificate.

- Failure to meet the requirements may result in problems gaining certificate endorsement or difficulties upon arrival in the destination country.

- Health certificates must be legible, accurate, and complete.

Pet Dog Import Guide

USDA APHIS Veterinary Services (VS) has animal health requirements related to bringing (importing) a pet dog to the United States (U.S.) from a foreign country. If you are bringing dogs in for research purposes, resale, or for veterinary treatment, USDA APHIS Animal Care has separate requirements.

Collies, shepherds, and other dogs used in the handling of livestock and that are imported from any part of the world except Canada, Mexico, and regions of Central America and the West Indies may be inspected and quarantined at the port of entry to determine their freedom from tapeworm infection.

VS has additional requirements for dogs traveling (imported) to the U.S. from countries affected by specific diseases:

(click on blue bars to expand)

Requirements for dogs traveling to the U.S. from countries or regions where screwworm is known to exist:

Requirements for dogs traveling to the U.S. from countries affected with Foot and Mouth Disease:

Check with U.S. Centers for Disease Control

IMPORTANT

Carefully read ALL of the requirements related to your pet on this page.

◆ It is the responsibility of the pet owner to make sure their pet has met the entry requirements of the U.S. Failure to meet these import requirements will result in problems upon arrival in the U.S.

◆ Multiple agencies may have regulatory authority over your pet when it enters the U.S. It is important to notify and coordinate with all responsible government agencies. Contact information and additional details are located on each specific pet page.

- Neurologic Signs, Fever, Death 12-36 Hours
- Previously isolated disease in traveling domestic rabbits
- 2021

As of December 2021, RHDV2 has been confirmed in wild rabbits in New Mexico, Arizona, Texas, Colorado, California, Nevada, Utah, Idaho, Wyoming, Montana, and Oregon.

RHDV2 has also now been confirmed in domestic rabbits in New York, Kentucky, Mississippi, Minnesota, South Dakota, Georgia and Florida (no cases in wild rabbits currently confirmed in these states).

Animal Welfare

Animal Welfare Laws

- 18VAC150-20-140. Unprofessional Conduct
 - Failing to report suspected animal cruelty to the appropriate authorities.
 - Failing to release a copy of patient records when requested by the owner; a law-enforcement entity; or a federal, state, or local health regulatory agency.
- VA animal welfare laws
 - see URL in handbook
- Animal Control Officers
 - All jurisdictions (counties and cities) are required to have an ACO
 - Primary Responsibility for investigating and enforcing Animal Care Laws
 - Animal welfare concerns should be directed to local ACO

OVS – Animal Care

- Conduct inspections of all Virginia public and private companion animal shelters
- Oversees Virginia animal control officer training
- Manage the state's Dangerous Dog Registry

- We encourage veterinarians to become educated in Virginia's animal welfare laws and engage with their local animal shelter to provide subject matter expertise

Rabies

Rabies Regulations

- Contact local Health Department
 - Rabies vaccination
 - Testing
 - Vaccination clinics
 - Exposure
 - Post exposure vaccination
 - Directory link in manual
- Virginia Department of Health
 - 2 veterinary epidemiologists on staff
 - 85% of caseload is rabies

Rabies Vaccination Requirements

- **Legal requirement for vaccination**
 - All dogs and cats must receive vaccine prior to 4 mths
 - Must be administered by licensed vet or vet tech
- **Regimen** No matter age at initial vaccination
 - Second vaccination should be given within a year
 - 3 Year vaccinations begin with 2nd vaccination
 - even if 2nd vaccination is overdue or early
- **Exemption to Vaccination**
 - Exemption certificates may used in lieu of vaccination certificate to get license
 - For exemption, veterinarian should contact local health dept

Rabies Vaccination Requirements

- **Licensing linked to vaccination**
 - All dogs and sometimes cats need to be licensed by 4 months of age
 - Rabies certificates must be forwarded to local treasurer within 45 days
 - Animal vaccinated by owner is considered unvaccinated
- **Rabies clinics**
 - Regulated by local health department
- **Livestock**
 - Not required but strongly encouraged

Application Status

- Should hear from USDA in 2-3 weeks
- Greene, Robin T - APHIS
robin.t.greene@aphis.usda.gov
- Make sure you keep email and mailing address current with USDA
- Renewal every 3 years
 - Category I – 3 modules
 - Category II – 6 modules

Category II

- Animal Disease Reporting
- Animal Welfare
- Equine Diseases
- Federal Animal ID and Traceability
- Cattle Program Diseases
- Birds and Poultry

Large Animal Disease Reporting

- Reportable Disease List
 - VDACS Website
 - USDA Website
- Must report to USDA and State Vet within 24H

Reportable Diseases

- Vesicular Stomatitis
 - Viral disease of livestock
 - Spread by midges
 - Frequent outbreaks in southwest US
 - Vesicular lesions
 - Mouth, dental pad, tongue, lips, nostrils, hooves, and teats
 - Very painful
 - Anorexia
 - Lameness
 - Diagnostic rule out for foot and mouth disease

Reportable Diseases

- High Pathogenic Avian Influenza
 - Multiple recent outbreaks in the US
 - Mortality nears 100% in poultry
 - Carried by waterfowl
 - Can mutate from low path to high path
 - Control through depopulation and surveillance

Be Suspicious and Call

- High morbidity, high mortality
- Signs that do not fit the classical picture
- Vesicular lesions
- Severe abortion storms
- Pox or lumpy skin
- Suspicious necropsy findings
- History of foreign travel or importation
- Larvae in wounds

If You Suspect EHM

- Call us
 - 804-786-2483 day
 - 804-674-2400 after hours
 - 804-248-9905 cell
- Use the Warrenton Lab for faster turn around time
 - We can assist in having lab called in if deemed necessary
- Submit nasal swabs (not cotton) and whole blood (purple top) for PCR
- Impose a voluntary quarantine
 - We can help
- Isolate sick or febrile horses
- Take temperatures twice a day
- Biosecurity
- If positive we will quarantine

Federal Animal Identification

- Application of Official ID
 - Brucellosis testing and vaccination
 - TB testing
- Official ID for CVI's
 - Not all forms of ID are accepted in all states
 - Interstatelivestock.com
- RFID Tags may be available from VDACS
 - Contact regional office or Dr. Richard Odom

Official Identification Cattle

- *AIN tags - RFID or visual*
 - '840' prefix
- '900' prefix (only for tags manufactured before March 11, 2014 and applied before *March 11, 2015*)
- *NUES 9 tags*
 - silver 'brite' tags
 - OCV/Bangs tags (orange)

Official Identification Sheep and Goats

- Scrapie Regulation
 - 15-digit 840-series electronic
 - Scrapie Flock Tag:
 - Scrapie flock number and the individual animal
 - Scrapie Serial Tag:
 - Begins with the state postal code, county, flock id, animal
 - To order scrapie tags call
 - **1-800-USDA-TAG**

Bovine Tuberculosis Testing

- Tuberculin obtained through VDACS or USDA
- For first test a VDACS Vet must be present
 - Call regional office for appt
- No other medications or tail bleeding just prior to the test

NOTE: All suspects must be retested by a regulatory veterinarian within 7 days of being determined such. This means the veterinarian needs to contact VDACS immediately upon determining a responder. Failure to perform confirmatory testing results in a quarantine of the entire herd for a minimum of 60 days at which time the retest can be performed.

NOTE: One of 300 (.3%) average suspects are expected based on normal response rates and environmental cross reactions. Veterinarians are monitored for response rates and those that are low will require re-training.

Needs Official ID Approved by Virginia

Degree of Response Does Not Correlate with Severity or Likelihood of Infection

Practitioners Report "N" negative or "S" suspect Only

New TB cases in the last five years include these 14 states: MI, MN, TX, NM, CA, CO, AZ, OH, MS, NE, KY, SD, IN, & WA.

RT - Retest
NA - Natural Infection
PA - Purchased Addition

N - Negative
S - Suspect
R - Reactor

PART 1-OFFICE

Bovine Brucellosis Vaccine

- RB51
 - Live Product
 - Only administered by accredited vet or State or federal animal health official
 - Protects from abortion
 - May be shed in milk
- Heifers only
 - Dairy and Beef
 - 4-12 months of age
- Must tattoo in right ear
 - R
 - Official shield
 - Last digit of year
- Official tag
- Check with VDACS for adult cattle
- Infrequent today

Birds Regulated as Poultry

- Chickens
- Doves
- Ducks
- Geese
- Grouse
- Guinea fowl
- Partridges
- Pea fowl
- Pheasants
- Pigeons
- Quail
- Swans
- Turkeys

Birds and Poultry

- Depending on the type of bird it may be regulated as pet, wildlife or poultry
- Check with destination state prior to movement
- International Export contact USDA
- National Poultry Improvement Plan
 - Contact VDACS Harrisonburg for more info
- Diagnostics
 - Harrisonburg Regional Animal Health Lab
